

MATT ZHANG

github.com/mzhang · matt@zhang.software · 705-977-0309 · zhang.software

SKILLS

Languages: Python, Javascript, C, HTML, CSS

Technologies: Git/Github, Bootstrap, Microsoft Azure, PaaS(Heroku, Netlify)

PROJECTS

97.0FM

Discord.py Music Recommendation Bot

Python, Discord.py
github.com/mzhang/97.0FM

- Created a public bot for the Discord instant messaging platform.
- Makes Youtube Music API calls to generate a Youtube playlist of relevant music from a single provided song

WSMAC

NLP and grammar analysis with a machine learning model and hardware feedback

Python, Javascript, Microsoft Azure

- Collaborated with small group to develop a device that gave physical feedback based on ML analysis of users' spoken grammar
- Uses Microsoft Azure speech-to-text to transcribe each spoken sentence
- Uses DistilBERT trained on CoLA to check for grammatical correctness
- Interfaces with Arduino for physical output

Clean Timer

Java-based Android App for competitive Rubik's Cube solving

Java
ply.gl/com.mzhang.cleantimer

- Worked in Android Studio to build a companion app to record and store puzzle-solving scores and statistics
- Published on Google Play
